Important Information

About the Safety of your Drinking Water

We are pleased to report to you that the drinking water supplied by Country Corners MHC. is **SAFE**. The tables inside show that the drinking water supplied by **Clarke County**. gets an excellent report when compared to health standards.

As health scientist learn more about our environment, and the effect of substances in the environment on human health, new standards will continue to be set for drinking water

All drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the EPA’s Safe Drinking Water Hotline (1-800-426-4791)
